

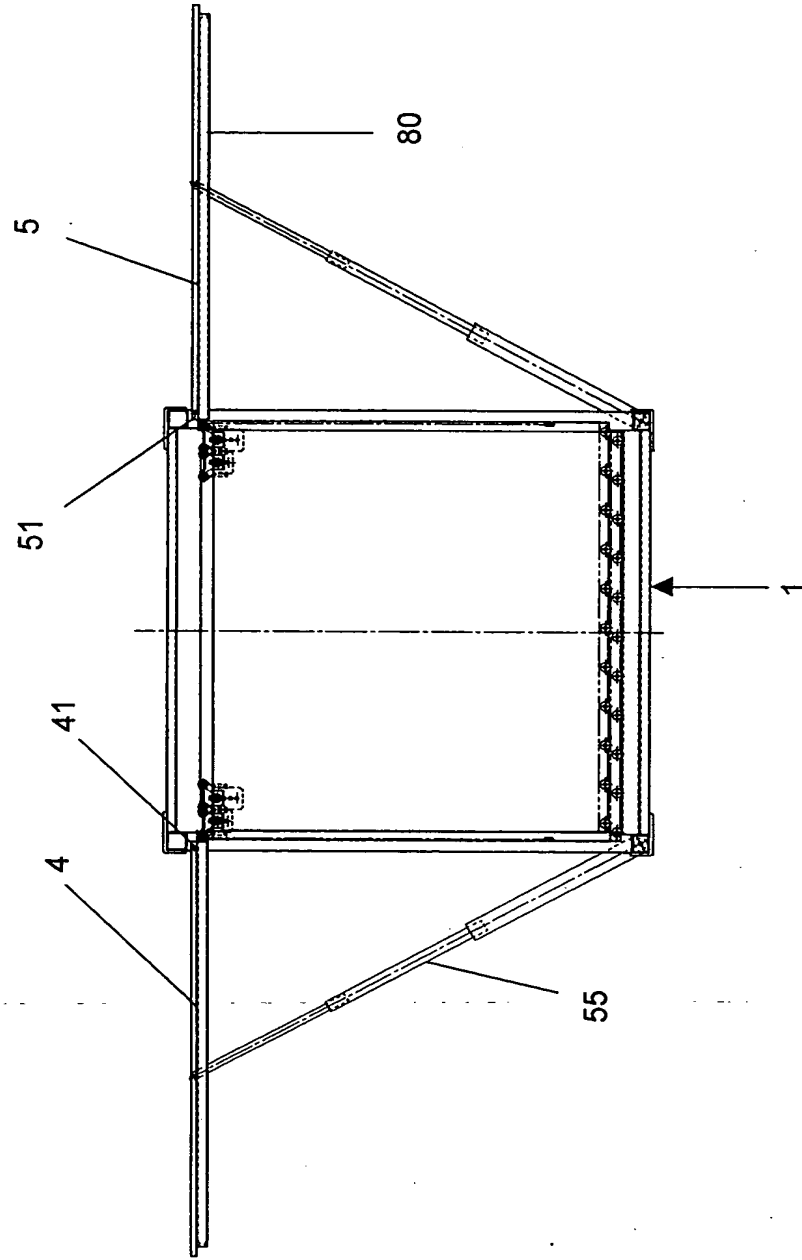

Fig. 1a)

Fig. 1b)

This technical drawing shows a perspective view of a rectangular frame assembly. The assembly consists of a central rectangular panel (2) surrounded by a frame. The frame is composed of several parts: a top rail (26), a bottom rail (16), and side rails (4, 11). The side rails are connected to the top and bottom rails by corner brackets (13). The frame is supported by a base (15) and a top support (27). Arrows (1, 10, 20) point to the side rails, and arrows (5, 80) point to the corner brackets. The drawing includes dashed lines to indicate hidden internal components and a central vertical dashed line (3) representing the axis of symmetry.
